"Region Security Guarding were very helpful in providing security for our building..

Our Account Manager was always helpful, responsive and made sure to call me for updates and thoughts on how the service could improve. The guards themselves were professional, easy to reach and adapted well to our specific needs.

Would definitely recommend Region for security needs."

ABOUT REGION SECURITY GUARDING

OUR VISION

At Region Security Guarding, we combine a clear strategic vision with hands-on experience to deliver exceptional security services across the UK.

With over 10 years of hands-on experience, we're committed to protecting what matters most: offering high standards at fair, transparent prices.

We work across the commercial, industrial, public, and private sectors, providing everything from manned guarding to mobile patrols. Every client receives a personal consultation, often with a director, to ensure the right solution for their needs.

Our success is built on integrity, reliability, and strong partnerships. At Region Security, we believe in doing things properly — first time, every time.

Host.

"We've used Region Security Guarding for just under a year now and can't fault them. The guards are on time and friendly, open to our buildings procedures and how we handle different occurrences.

Will continue to use them moving forward."

We recognise that first class security guarding lies within the performance of our team of security officers and supervisors.

We attend last minute needs with a fast turn around to keep your business safe.

We aim to provide a complete solution for all your security needs.

Our security officers are fully vetted, trained and licensed to meet standards set by the SIA.

STATIC SECURITY

We provide fully SIA-licensed, professionally trained static security guards to protect your site, whether it's a retail outlet, commercial facility, or industrial premises.

A uniformed static security officer acts as a strong visual deterrent against theft and vandalism, while also helping to minimise risks such as fire or flood damage. Often stationed within a client's control room alongside CCTV systems, our guards carry out regular, recorded patrols to ensure full site security. Services can be tailored on a flexible basis, ensuring your business is protected during its most vulnerable times.

CONSTRUCTION SECURITY

We actively monitor and manage the security services we provide to ensure they consistently meet the specific needs of your construction site.

Region Security Guarding specialises in providing licensed security officers to protect construction sites at every stage — from initial groundwork through to project completion. We conduct thorough site risk assessments and detailed surveys to ensure that all personnel, including our officers and anyone entering the site, are fully informed of health and safety requirements.

RETAIL SECURITY

All of our retail security guards undergo rigorous background checks and hold individual SIA licences, ensuring professional, reliable protection for your premises.

Having a robust retail security solution in place is essential to protect your stock from theft and vandalism. That's why, at Region Security Guarding, we offer a comprehensive range of retail security services and loss prevention strategies — helping to ensure your business stays secure and your assets protected.

ADDITIONAL SERVICES

WAREHOUSE SECURITY

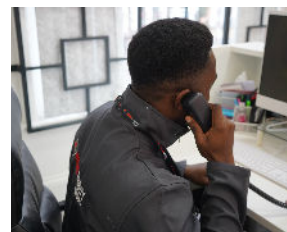

We provide dedicated warehouse security services designed to deter theft, prevent vandalism, and protect your site through effective, tailored security measures.

Warehouse owners typically face two key security concerns: ease of access and remote location. While warehouses are built for efficient loading and unloading, this accessibility can also create vulnerabilities. Vandalism and theft are among the most common threats to storage and distribution facilities. That's why having a trained security guard on-site is one of the most effective ways to protect your premises and maintain a secure environment.

CONCIERGE SECURITY

Our concierge security service offers a professional front-of-house presence combined with reliable protection. Fully SIA licensed and well-presented, our officers deliver both security and exceptional customer service.

Whether in an office building, residential complex, or corporate reception, our concierge security staff manage access control, greet visitors, and handle security protocols with discretion and professionalism. By choosing Region Security Guarding, you gain more than just protection — you gain a welcoming, secure environment that leaves a lasting first impression.

MOBILE PATROLS

Whether you need a single nightly visit or multiple patrols, Region Security Guarding delivers flexible mobile security solutions tailored to your site's needs.

We understand that visibility is key to effective security. That's why our mobile security supervisors arrive in full uniform and clearly marked patrol vehicles, providing a strong deterrent to potential threats. Our patrols can cover a wide range of environments — from open areas like parks and schools to locations that are hazardous to monitor on foot. No task is too challenging for Region Security Guarding.

GUARD TRACKING

Our guard tracking system enables Region Security Guarding to maintain an excellent level of service at any location. We can fully monitor our guards using this system and offer a record to confirm that patrols have been completed on time.

KEY HOLDING

Region security guarding provides businesses and homes with a key holding service which means we retain 'keys' to your premises that are deposited in our security key holding facility. Keys are kept sealed and each seal is uniquely numbered and recorded in our log book.

ALARM RESPONSE

Our alarm response service means our security officers will attend your premises on your behalf and deal with the situation. A comprehensive report is provided to you the following morning outlining the incident and the action taken by our response officers.

HIGH STANDARDS

We make sure to comply with industry regulations to ensure our services are always of the highest quality

FLEXIBLE PLANS

We create a flexible payment plan for all of our customers that suits them and their business.

"The services provided were excellent, the management was well organised and communication with both employees on duty and the management was overall excellent. I would definitely recommend your services and would not hesitate to use your services again myself in the future."

CUSTOMER SATISFACTION

We build strong relationships with our clients through our excellent service delivery, addressing their security needs.

PRICE PROMISE

We beat or match any competitor's prices on a like for like basis, making our prices some of the most competitive in the industry.
